

**Aluminum Lost Wax Casting manufacturer,China Lost Wax Casting,Lost Wax Casting suppliers**

Product Name:	<b>Aluminum valves</b>
Model:	QL 0455
materials:	A356-T6
Weight:	Depending on the actual design Finish: Blasting, Polishing, Coating, Painting ?
Product Name:	<b>Aluminum housing Case</b>
Model:	QL0412
materials:	A101-T6
Weight:	Depending on the actual design Finish: Blasting, Polishing, Coating, Painting ?
	Aluminum Lost Wax Casting can be best used if complex shapes are needed
	Using the following chart to compare with different Casting Way
	On this quick and easy to use chart, each issue is rated from 1 to 3 (3 being the best or most economical solution).
	Permanent Mold is often thought of as the process somewhere in between sand castings and die casting.
	Sand Castings typically have higher costs associated with piece price, but lower tooling costs .
	Die Casting tooling can be very expensive initially, but the piece price is low.
